

Discover the Quality & Innovation

of Al-Douh Iraqi Company for Cement Industries

We are excited to introduce you to Al-Douh Iraqi Company for Cement Industries Ltd., a leading name in the cement industry in Iraq since 2008. With a production capacity of 1,500,000 tons annually, we are committed to providing high-quality, resistant cement that meets both Iraqi and European specifications.

Why Choose **Al-Douh Cement**

1 Superior Product Quality

Our cement products, including SRC salt-resistant cement, are known for their high quality and fine texture. Each batch is meticulously produced to ensure low alkali content, making our cement suitable for various construction needs.

2 Versatile Availability

Our cement products are available in both bulk and bagged forms (50 kg), catering to a wide range of industrial and construction applications.

3 Environmental Responsibility

Our factory is designed to be environmentally friendly. We prioritize reducing emissions of gases and volatile dust, ensuring that our operations do not contribute to environmental pollution.

Our Commitment to Excellence

At Al-Douh Iraqi Company for Cement Industries, we are dedicated to maintaining the highest standards in our production processes. Our adherence to stringent quality control measures guarantees that every product that leaves our factory is of the highest caliber
